POWER SUPPLY

# CIOKS AC10

AC10 is a member of CIOKS professional range of dedicated multi-output power supplies for effect pedals. Its two powerful AC sections with 800mA each offer voltages 9, 12 and 16V AC. If you have one or two pedals in your setup, which requires an AC power source, AC10 is the right choice. It powers all vacuum tube pedals from Electro-Harmonix, Kingsley, older Blackstar HT series, the Whammy or JamMan from DigiTech, Tube Rotosphere, Tubeman, Tube Factor or Replex from Hughes & Kettner or EBS Valve Drive just to mention a few. If you only have one AC pedal, you can convert one of the AC sections into a powerful DC section offering 600mA with voltages 9, 12 and 15V DC. The first 4 isolated outlets offering 600mA are perfect for pedals using 9 or 12V DC at lower currents up to 200mA.

## **Features:**

- ▶ 10 outlets configured in 6 isolated sections
- ▶ toroidal transformer with additional magnetic field shielding
- ▶ 2 powerful AC sections with 800mA each
- ▶ 9, 12 and 16V AC available
- ▶ one AC section convertible into a 600mA DC section
- ▶ 15V option for Radial Tonebone pedals
- ▶ short circuit protection of all outlets
- ▶ advanced LED monitoring of each section
- ▶ temperature monitoring
- ▶ 120 or 230V mains voltage operation
- ▶ 16 Flex cables in total included
- ▶ Flex cable for Electro-Harmonix vacuum tube pedals included
- ▶ one Split Flex and one Stack Flex for 18V pedals also included
- ▶ mounting kit for pedal boards included
- ▶ durable steel enclosure with 2mm thick top

## **Specifications:**

Outlet 1-2: 9V DC / 100mA each  
Outlet 3-4: 9 or 12V DC / 200mA each  
Outlet 5-6: 9 and 12 or 15V DC / 600mA\*  
Outlet 7-8: 9 or 12V AC / 800mA\*  
Outlet 9-10: 9, 12 or 16V AC / 800mA  
\* only one of these two sections can be used

Size: 158x98x35mm (excl. rubber feet)  
Weight: 1,1kg

Warranty period: 5 years

More power - more features - more design
